Features

4 reels
11 paylines
Joker: The Joker is a replacement for other symbols.
Bonus Game: Move through the three rooms of the pyramid, because after each win you come one step closer to the treasure chamber. If all the hieroglyphs light up, you will receive a one-time, triple, or even a four-fold multiplier on your next win.

Paytable

The following table shows the winning factor for all winning combinations. The winning factor represents the multiple of the bet value that is returned to the player when the winning combination occurs.

Symbol	Factors
